Dear Arlington Heights Bike Club,

I'm helping to coordinate a charity cycling event that benefits the Friedreich's Ataxia Research Alliance (FARA).

Please post this information on your ride calendar to let your community know about our ride.

Event: rideATAXIA Chicago

Date: Sunday, July 21, 2019

Location: Channahon Central Park, Channahon, IL

Website: [rideATAXIA.org/Chicago](http://rideATAXIA.org/Chicago)

**Discount:** Receive 10% off registration by using code: **chicagoclub19** at checkout.

Discount will not be available for same day registration. Registration will close on Thursday, July 18th at noon.

For: Friedreich's Ataxia Research Alliance (FARA). A 501(c)(3), non-profit organization dedicated to funding research to cure Friedreich's Ataxia, a debilitating, life-shortening, degenerative neuromuscular disorder with no treatment or cure.

Brief Description: 1, 4, 12, 27, and 50 mile route options. Fully stocked rest stops, strong SAG support, and delicious post ride food prepared by Outback Steakhouse, Carrabba's Italian Grill and Bonefish Grill. Fundraising benefits the Friedreich's Ataxia Research Alliance (FARA). Fundraising is not required but strongly encouraged. For details including route maps and registration visit: [rideATAXIA.org/Chicago](http://rideATAXIA.org/Chicago)

Registration Fee: \$45 Regular Priced Cyclist (No Fundraising Minimum) or \$25 Reduced Price Cyclist (With \$200 Fundraising Minimum); increases by \$5 after 6/21/2019 and \$10 for same day registration. Registration fee includes ride, lunch, and event t-shirt.

Friedreich's ataxia (FA) is a debilitating multi-system disease and the most common type of inherited ataxia. 1 in 100 people are carriers of the FA gene. What begins as difficulty with balance and coordination progresses over a short period of time to a life altering loss of mobility, energy, speech and hearing, robbing children and young adults of the ability to live active lives. FA also presents serious risk of diabetes and life shortening cardiac disease. As of today, there is no treatment or cure. Fundraising to support FA research is strongly encouraged, but not required.

Please let me know if you have any questions.

Sincerely,

Jamie
